Shumija District

Deputy Commissioner's office

29th March 1883

Despatch 6. April 1883.

From

The Deputy Commissioner

Shumija District

To

The Secretary to the Dewan
of Mysore

Sir,

I have the honor to submit for sanc-

- tion the Budget Estimates of Receipts and
Disbursements of the minor Municipalities
of this District for the year 1883-84

2. By the transfer of the towns of Davangere
and Harihar, the number of the minor Munici-
- palities in this District has been raised to 11

3. In memo no 561 dated 29th November last to the
address of the Deputy Commissioner of Chitaldrug
forwarding a petition of the inhabitants of Davangere,
the late Dewan directed that the levy of Octroi should
be abolished from 1883-84 dispensing with all useless
establishments; & the desirability of doing away with
the Octroi in all the other minor towns also was
suggested. It has therefore become my duty to give
effect to the above order as far as possible. I have
retained the Octroi on piece goods only in all the towns
abolishing that on all the other items such as tobacco
betel leaves, Coconuts, jaggery, sugar, Oil &c.

4. But in proposing the abolition I have calculated
when

upon the overnment ^{ing} asked to
the $\frac{1}{3}$ share of the cost of Local Fund Dispensaries and the half share of the cost of repairing the School buildings at Taluk Kasbās, now debited to the Municipal revenue, being entirely debited to the Local Funds. There are Dispensaries at Sagar, Tirthalli, Shikarpur and Davangere, the Municipal share of the cost of Establishment being Rs 480 per year and another dispensary is proposed to be established at Sorab from 1883-84. It will be seen from the enclosed budgets that notwithstanding the reduction of Establishments &c proposed to be made the Municipalities have too very little money to defray the dispensary charges and the cost of School repairs. As the estimates for the latter item are prepared in the P W D it is not known exactly what sums the several towns will have to bear on this account —

— But one instance of which correct information is available will illustrate. For the repair of the School at Nyanuti an estimate has been framed for Rs. 615, but the town is, it will be seen, not at all in a position to defray it. Under these circumstances I beg to recommend that these charges connected with the dispensaries & the schools may be entirely transferred to the Local Funds.

5. The Budgets show in juxtaposition the present and proposed sources of income, establishments &c. In the way of Public Works, provision could be made only for the bare annual repairs of roads and other ordinary works. The arrangements for lighting which exist

exists in a small scale in Thirthalli, Shikarpur & Davangere will cease hereafter as such towns can well do without lighting, ~~now~~ that the income has been so materially curtailed by the abolition of the Octroi in the manner above recommended.

6. In anticipation of sanction I have issued orders to carry out the abolition of Octroi and the reduction of the establishments as shown in the Budgets from the 1st April 1883.

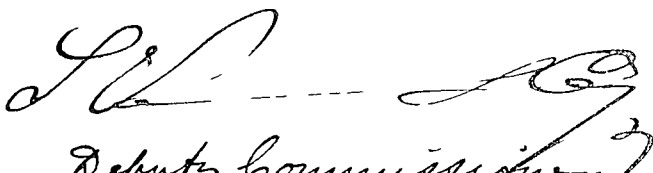

7. The pay of the District Municipal Clerk is Rs 30/ paid from the towns noted in the margin. As the contribution on this account from Sorab and Nafar will be reduced to 1 Rupee each per month, the two Rs which falls short of the Clerk's pay will be made up out of the sum of Rs 5 provided in the Shimoga town Budget as an increase of pay to the Municipal Gumasta of that town, there being no necessity apparent for this increase under the present circumstances. But I propose to utilize the contribution of Rs 7/ from the towns of Davangere & Harihar in employing a Kanarese hand in the District Office as his services are greatly required to carry on the Kanarese Correspondence connected with all the Taluk Municipalities without delay.

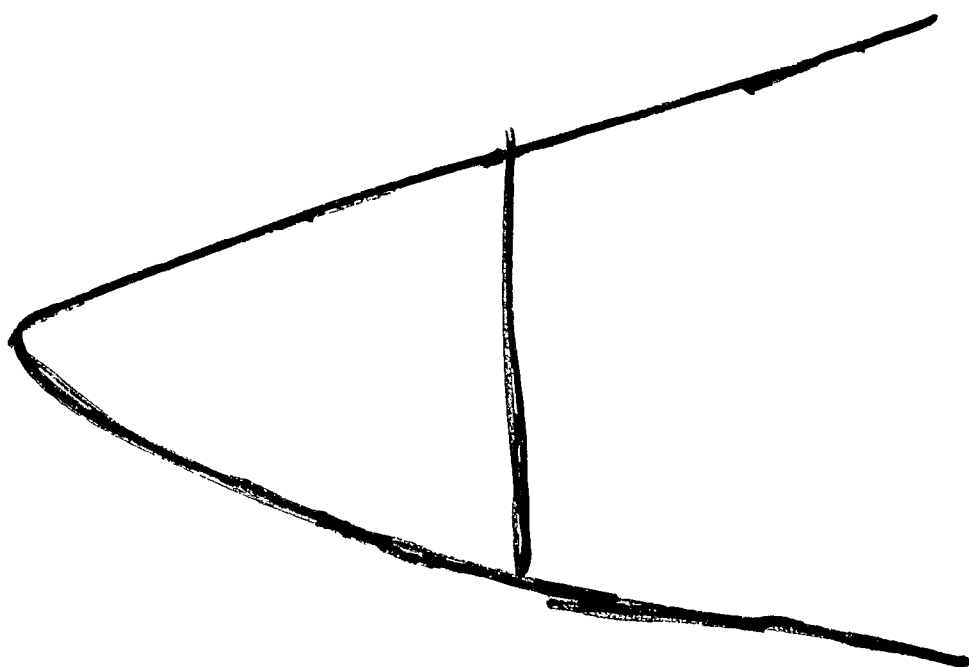

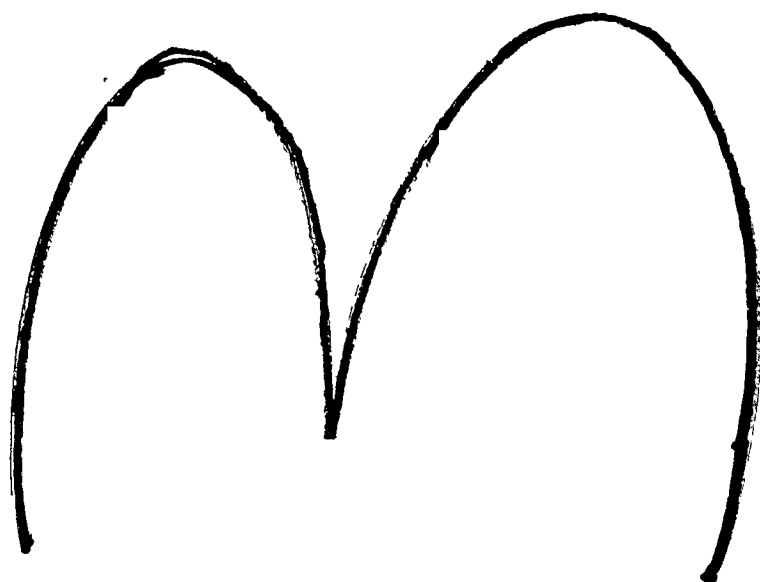

I have the honor to be
Sir

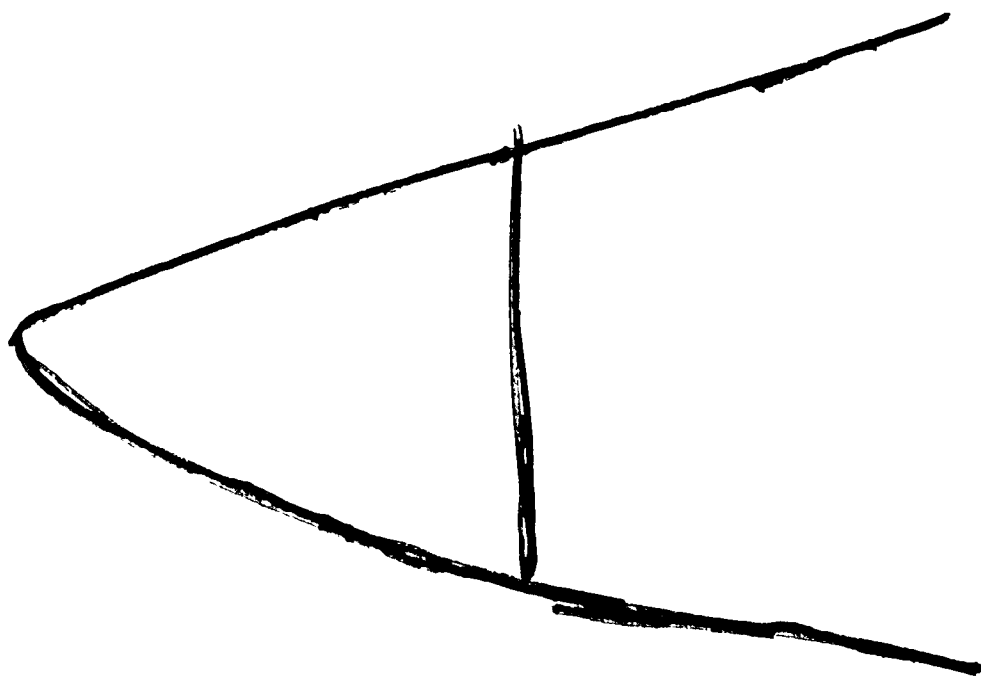

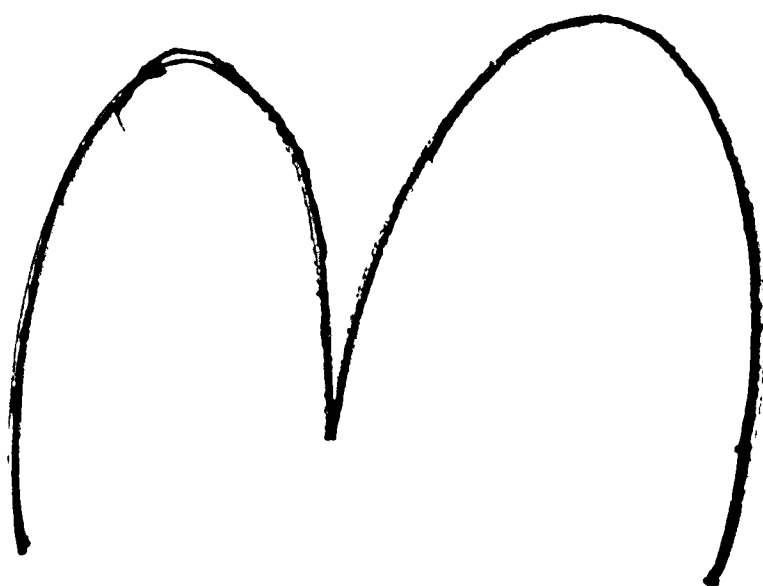

Your most obedient servant
